Work Experience

CodeAlpha | (Web Developer **))**   **Jan 23 – Feb 23**

❑ The main objective of the internship was to integrate a payment gateway into the E-Commerce Web Application, enhancing its functionality and enabling secure online transactions.
❑ The integration aimed to provide users with a seamless and convenient payment experience, allowing them to make purchases directly within the web application.
❑ Once the payment is done an invoice will be generated and an email will be sent to the user for the payment received. The invoice will contain the amount.

Projects
